ITEM 150

APPLICATION OF RATES AND RULES SCHEDULE

Rates, rules, charges and/or provisions contained herein apply to any shipment designated through the application of DOE 200-C, 06/01/2001 Item 150, for which DOE or its contractor has responsibility for payment of freight charges. Schedules 190-C, 200-C, and the DOE Bid Proposal set forth the entire agreement as to rates, rules, charges, and/or provisions between DOE, its contractor(s), and the carrier. To the extent there are any conflicting, duplicating, or additional rates, charges, rules and/or provisions published or agreed to elsewhere, they are hereby invalid and not applicable.

The following is a list of participating U.S. DOE and contractor facilities as of May 2003. This list is dynamic and will change as old contracts expire and new agreements are initiated.

DOE 200-D

**SECTION 1
SPECIFIC TRUCKLOAD RATES**

(For Application of Rates in Section 1, See Item 1000)

(Rates in Cents per Loaded Mile, Except as Noted)

ITEM 1000

APPLICATION OF RATES IN SECTION 1

When truckload rates are published in this section on the commodity transported from point of origin to point of destination, rates named in this section will apply regardless of rates between the same points in Section 2.

For explanation of abbreviations and reference marks, see Item 9000.

DOE 200-D

**SECTION 2
GENERAL TRUCKLOAD RATES**

(For Application of Rates in Section 2, See Item 2000)

(Rates in Cents per Loaded Mile, Except as Noted)

ITEM 2000

APPLICATION OF RATES IN SECTION 2

When truckload rates are published in this section on the commodity transported from point of origin to point of destination, rates named in this section will not apply when rates from and to the same points over the same routes are published in Section 1.

For explanation of abbreviations and reference marks, see Item 9000.

DOE 200-D

SECTION 3

LESS THAN TRUCKLOAD RATES

(For Application of Rates in Section 3, Item 3000)

(Rates in Cents per Loaded Mile, Except as Noted)

ITEM 3000

APPLICATION OF RATES IN SECTION 3

Rates in this Section apply on less than truckload (LTL) shipments. LTL shipments are defined as those shipments 20000 lbs or less which do not meet the definition of a Capacity Load as found in DOE 190 Item 390.

Explanation of Weight Groups:

MC = Minimum Charge per Shipments
L5C = Less than 500 lbs.
M5C = 500 lbs. Or more but less than 1000 lbs.
M1M = 1000 lbs. Or more but less than 2000 lbs.
M2M = 2000 lbs. Or more but less than 5000 lbs.
M5M = 5000 lbs. Or more but less than 10000 lbs.
M10M = 10000 lbs. Or more but less than 20000 lbs.
M20M = 20000 lbs. Or more hut less than 30000 lbs.
M30M = 30000 lbs. Or more but less than 40000 lbs.
M40M = 40000 lbs. Or more

Note: When the charge computed on a higher rate for the applicable weight group at actual weight exceeds the charge computed on the lower rate for the next greater weight group at the lowest weight for that weight group, the lower charge will apply.

For explanation of abbreviations and reference marks, see Item 9000.
